

Airtel Uganda Launches Fiber to The Home Service to improve the Lifestyle and productivity of customers.

- Offers Very fast unlimited web browsing, gaming, streaming and CCTV capability and increased productivity

Kampala, 8th December 2022: Airtel Uganda, The Smartphone Network with the widest 4G coverage in the country, has today launched the Fiber to The Home (FTTH) service. This service supports any homeowner for fast web browsing, heavy online gaming and downloading, multiple device streaming, superfast video downloading and music streaming, CCTV devices capability and much more through a reliable fiber cable connection. The Service was launched today at BellWether Apartments in Kyanja, Kampala.

Airtel Xtreme service gives customers unlimited access with no limitation of data volume caps.

Speaking about the new development, Mr. Henry Njoroge, the Marketing Director, Airtel Uganda said, “Our Fiber To The Home service is designed for all homes and businesses with multiple internet needs across multiple devices. Through a reliable fiber cable connection, a customer will be able to; stream video and music faster, superfast video downloading, share the connection across his/her many devices in the home, connect and monitor CCTV security systems. Businesses using Airtel Xtreme will be able to share, collaborate and work on very large projects, hold big and long online conferences with partners from across the world. They will also have capabilities for streaming videos, monitoring CCTV security using the power of the internet among other uses.

“We are putting the right physical and digital infrastructure in place to support the growing communication needs of Greater Kampala residents and businesses. To meet our obligations under SDG 9 that aims to grow

internet access, Airtel is laying more Fiber, upgrading sites, and innovating solutions ahead of the needs of our customers”.

Mr. Hillary Bamulinde, The Proprietor of the BellWether Apartment said “Our objective was inspired by a desire to provide our clients with comfortable but productive living space, that is partly why we sought out services like Fiber internet. We are pleased to partner with Airtel Xtreme to ensure that we deliver a good experience to our residents. I would like to challenge Airtel to extend this service to many residences so that the prices can progressively be more affordable”

Xtreme Max plans are designed to cater for the small and medium businesses, start-up entrepreneurs, and work-from-home users depending on their budget. The plans come in three packages as highlighted below:

Plan	Capacity	Price(UGX)
Xtreme Max	Up to 10Mbps	1,70,000
Xtreme Max	Up to 30Mbps	2,50,000
Xtreme Max	Up to 50Mbps	3,50,000

In addition, each new plan comes with a Wireless Router that allows the FTTH customer to connect his different devices in the home that share the connection.

“As a technology enabler, we are open to partnerships, especially with property developers and urban authorities, that can improve the lifestyle and productivity of Ugandans. Airtel Xtreme is one such solution that can deliver this productivity” Njoroge concluded.

ABOUT BHARTI AIRTEL LIMITED

Airtel Africa Limited is a Pan-African telecommunications company with operations in 14 countries across Africa. Airtel Africa is driven by the vision of providing affordable and innovative mobile services to all and is supported in pursuing this vision by its largest shareholder, Bharti Airtel.
